First a camping place, later on a homestead and then a house, and later on more houses, stores schools, churches, until after years and years of

hard work and saving Pendleton has become the big-

gest little city in Eastern Oregon. All things grow that way, wealth comes slowly at first, dollar by dol-

far it accumulates, and every dollar properly saved and invested brings us a step nearer independence. Of course life savings can be lost in one day by some

unsound investment or speculation; that is why it is better to see your banker before you invest. "First Make Sure."
